

Revised: January 2019

EMERALD RISK TRANSFER (PTY) LTD - UNDERWRITING INFORMATION REQUIREMENTS

In order for Emerald to consider a risk a full placing slip is required including but not limited to the following:

- Cedent/Re-Insurer's retention and capacity required to be reinsured – if the risk is located outside of South Africa
- Inception and period of reinsurance
- Total insured values split per location, for both PD, BI and MB, where required
- Address/es of insured location/s
- Loss history per claim (minimum 5 years)
- Occupancy/description of business and processes involved
- Deductibles
- Original premium or rate/s applicable on TIV, if known
- Original policy wording
- Extensions of cover and sub-limits required
- Recent risk survey report of main location/s, including MPL assessment and for power generation describing:
 - Type of plant: e.g. Simple cycle configuration
 - Capacity and maintenance regime
 - Main machinery: gas turbine, generator make and model
- Scope of cover: assets all risks including business interruption and/or machinery breakdown
- If machinery breakdown is insured, provide a list of insured machinery, plant and equipment values and confirmation of critical spares kept on site
- A separate wording will be issued if Strike, Riot or Civil Commotion/Political Terrorism and Sabotage cover is required
